

Committed to

**HONESTY,
RELIABILITY**

and to maintaining
a safer working
environment

DEBAR

CERAMICS

DEBAR CERAMICS IS A **black women-owned company**

that supplies and installs wear-resistant materials for the mining, power-generation, construction, and cement-manufacturing industries. In addition to our main business, we began to diversify our interests into services such as industrial plant-cleaning services and have also been testing bird and wildlife injury-mitigation products for Eskom with the Endangered Wildlife Trust.

The company was established in 2013 as a broad-based black women-owned enterprise-development initiative under the directorship of Letsosa Matona and was in the premium incubation programme of the

COMPANY PROFILE

Black Umbrellas business-development hub (previously known as Shanduka Black Umbrellas) in Lephalale, where the company is based.

The owners of the company identified a need for a black women-owned company within the industry of wear-resistant linings in the Lephalale area and nationwide, as the five major role players were majority white-owned and in the Gauteng and Mpumalanga provinces.

01 Vision

Our vision is being a leading black women-owned company providing quality niche solutions to industry in Southern Africa.

02 Mission

Providing a comprehensive range of products and services and being competitive, cost-effective, and efficient through the employment of competent sales and operational teams that adhere to recognised safety standards, comply with stringent quality standards, and care for our environment.

03 Values

We are committed to honesty, reliability, and maintaining a safe working environment

AFFILIATION AND RECOGNITION

Debar Ceramics was enrolled and accepted into the Black Umbrellas' Lephalele enterprise-development hub in 2015 and we have now graduated after our third year of premium residential incubation programme

During our first year of the incubation programme, our MD, Letsosa Matona, received intensive business training and mentorship and Debar Ceramics was reported to be amongst the best-performing small businesses within the Lephalele incubation.

We later received the following regional and national awards:

- 1st place: Best Shanduka Black Umbrellas (SBU) Ambassador (2016).
- 1st place: Best Performing Company; 2nd place: Jobs Created; and 2nd place: Best SBU Ambassador (2017).
- 1st place: Best Performing Company; 1st place: Most Jobs Created; 2nd place: Best SBU Ambassador; and Overall Winner of National Enterprise Development Awards (2018).
- 1st place: Best Performing Company and Overall Winner of National Enterprise Development Awards (2019).

PRODUCTS AND SERVICES

The company focuses on the following products and services:

SUPPLY AND INSTALLATION OF IMPACT-RESISTANT LINERS:

- Chromium-carbide (CrC) overlay liners.
 - ◆ Various thicknesses and hardnesses are available in various shapes and sizes.
- Hardox/VRN liners.
- Composite liners:
 - ◆ Wafer liners
 - ◆ Ceramic-embedded rubber linings
- Rubber impact liners.

SUPPLY AND INSTALLATION OF UHMWPE LINERS:

- Polyethylene Solidurliners with an ultra-high molecular weight are available in various thicknesses and compositions.

HYDRO CYCLONE REPAIR/REFURBISHMENT:

- Quick turnaround times on cyclone repair/refurbishment. Ceramic and silicon-carbide components are available for cyclone lining for both new and refurbished cyclones.

POLYURETHANE SCREEN PANELS:

We are an official agent of Aury Africa products within the Limpopo province.

EPOXY WEARING COMPOUNDS:

- Tile adhesives.
- Wearing compounds.
- Crusher backing.

SUPPLY AND INSTALLATION OF (ALUMINA) CERAMIC LININGS:

- Flat lining of chutes, under-pans, sumps, tanks, launders, and various other surfaces:
 - ◆ Qualified tiling teams – on-site and workshop-based at our branch in Alrode.
 - ◆ Cost-effective maintenance contracts for on-site maintenance/tiling.
- Standard ceramic tiles:
 - ◆ Debar Ceramics supplies and uses only high-grade tiles containing no less than 92% aluminium oxide (alumina) in a range

of dimensions and thicknesses.

- Pipe lining:
 - ◆ Cylinders and pre-engineered pipe tiles, as well as unique, interlocking ceramic pipe tiles for applications requiring a specific arrangement and structural integrity.

RUBBER LINING:

- In-house or on-site rubber lining can be performed in tanks (including thickener tanks), sumps, chutes, pipes, etc.
- Supply of rubber (elephant) hoses.

PULLEY LAGGING:

- Direct-bonded pulley lagging.
- Rubber lagging:
 - ◆ Plain, diamond, or chevron cut.
- Ceramic-embedded rubber lagging.

IMPELLERS:

- SiC and ceramic impellers for a wide range of pumps as available for water, slurry, etc.

INSTALLATION/ERECTION:

- Installation/erection and removal of chute work.

BLAST AND PLANT FACILITIES:

- In-house blast and painting facilities at our works in Alrode.

ANIMAL-MITIGATING PRODUCTS:

- Supply and installation FRP (fibreglass) grating boxes on all Eskom's electrical poles, in partnership with the Endangered Wildlife Trust.
- FRP Grating Boxes tested with the Endangered Wildlife Trust and the Eskom - Research, Testing and Development Centre.

Wear solutions are provided to the following sectors:

INDUSTRIAL PLANT-CLEANING SERVICES:

- We provide industrial plant-cleaning services to industry.

STEEL FABRICATION AND REPAIRS/REFURBISHMENT:

- Fabrication of chutes, under-pans, sumps, tanks, pipes, bends, etc.
- Repair/refurbishment of worn steel components, e.g. chutes, under-pans, sumps, tanks, cyclones, etc. and the replacement of ceramic, steel, composite, rubber, SiC, and UHMWPE liners.

- Mining
- Mineral beneficiation
- Power generation
- Iron and steel
- Cement and lime manufacture
- Petrochemical refining and production
- Base and precious-metal smelting

AWARDS

Black Umbrellas honours SMEs at the 9th annual National Enterprise Development Awards (NEDA).

Our MD, Letsosa Matona, receives the award of Overall Winner from President Cyril Ramaphosa and the CEO of Black Umbrellas, Seapei Mafoyane.

The 10th annual National Enterprise Development Awards (NEDA).
